### **DETAILED ACTION**

1. This Office Action is in response to Application 10/580942 filed on 05/30/2006.

#### ***Priority***

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

#### ***Claim Objections***

3. Claims 4-14 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only and/or cannot depend from any other multiple dependent claim.. See MPEP § 608.01(n). Accordingly, the Claims 4-14 have not been further treated on the merits.

#### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Regarding base Claim 1, the phrase "optionally" and "optionally partially recirculated" in lines 3 and 9, respectively, renders the claim indefinite because it is

Art Unit: 3741

unclear whether the limitations following the phrase are part of the claimed invention.

See MPEP § 2173.05(d).

7. Regarding base Claim 3, the phrase "preferably" in lines 23 and 24 renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

### ***Claim Rejections - 35 USC § 102***

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Botti et al (US 2003/0168263). Botti et al discloses a power generation system including a fuel supply (9), a reformer (10), and engine (30), a solid oxide fuel cell (40), a heat exchanger (57), an air supply (61), an exhaust catalyst (90), an electrical source (100). Botti et al notes in paragraph [0039] that the engine is provided with homogenous charge compression ignition (HCCI) and further in paragraph [0055] that the fuel provided may be a conventional liquid fuel such as Fisher Tropsch and that the preferred fuel is based on the type of engine employed.
